

# Stone | EDGE

## SURFACES

Professional Grade Concrete Overlays

# COLORPAX

## dry integral colors

### DESCRIPTION

ColorPax integral colors are designed specifically for Stone Edge Surfaces 50LB bags of Gray...Stamp, Wall, Trowel and Spray mix. Each 1LB ColorPax integral color bag is mixed with 1 - 50LB bag of Stone Edge Surfaces overlay mix at a 1:1 ratio to provide consistent "integral" color throughout. By being scientifically weighed and color balanced with our Gray overlay mixes, you can be sure that every bag will have consistent color. ColorPax Integral colors can also be used with Stone Edge Surfaces White overlay mixes, but as they are designed specifically for Gray mixes, the resulting integral color will be the same for every bag, but the color shade will be slightly different than when mixed with a Gray mix. We recommend always testing a small amount before proceeding with your job. ColorPax come in cases of 12 individually packaged 1 LB bags..

### MOST COMMON USES:

- Integrally coloring Stone Edge Surfaces Wall, Stamp, Trowel, and Spray Mixes
