# COMPATIBLE SEALERS FROM THE FENIX GROUP

## DK 400WB Satin or Gloss

The best interior residential or commercial sealer application where longevity, durability and chemical resistance are desired and/or needed.

## BRIGHT SEAL WB

Better color enhancing, wet look acrylic for interior or exterior use.

## SUPERSEAL 20WB

Better for minimal enhancement and a satin or matte finish for interior or exterior use.

## FUSED PRIMER & SEALER

Great sealer for light traffic, easy color change (FUSED Solid Color Stain may be applied directly on top of it for easy accent or color change needs).
